NEW INTRODUCTIONS FOR 1949

Our two new introductions for 1949 are from the garden of the Rev. David Kinish, OSB, of Atchison, Kansas, and are his choice of the lot of seedlings he has there.

SILVER LAKE (Kinish 1949) ML 36"

\$10.00

This very fragrant light blue flower is one of the best substance and form. Though a very delicate color, it does not fade and the large flaring blooms are of real beauty. The beard is inconspicuous as is the veining. A very vigorous grower, plants are strong and well branched.

VIOLINE (Kinish 1949) M 36"

\$5.00

A deep blue violet self. Flowers are crisp, firm textured and long lasting. The beard is blue with a tip of light yellow. Strong, well branched plants. Flowers very fragrant and of good size.

ARETHUSA (Gage, 1937). M. 40". Large Daphne red flowers growing on tall, well branched stalks. Bronze beard blends into the goldenbronze haft.

50c

ARGUS PHEASANT (DeForest 194.). M. 38". A bright self of golden argus brown, flowers are large with orange beard, golden style arms and no markings at haft. Excellent substance. \$25.00

ARIANE (Cayeux, 1939). M. 36". Decidedly different, this enormous plicata of gleaming white is over-shadowed heavily with feathery veins of violet blue.

40c

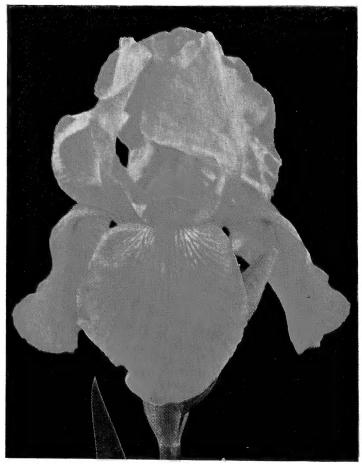

ATROUS (Gage, 1943). M. 34". Seen from afar Atrous appears to be a very black iris, but on approaching, the smouldering red burgundy colors flame out and grow intensely.

\$3.00

AVE MARIA (Tompkins, 1944). ML. 40". These enormous oval flowers of awe inspiring size stand stately and tall, reflecting their own glory. \$5.00

AZTEC GLORY (Horton, 1941). EM. 35". Brilliant sun rays on bright burnished copper reflect the richness of this beautiful glowing copper blend. \$1.50

AZURE SKIES (Pattison, 1943). ML. 36". A ruffled self of pale lavender blue, whose firm, domed standards and almost horizontal falls are accentuated by a white beard. \$2.00

BERKELEY GOLD

BAGHDAD (Whiting, 1946). ML. 34". An unusual blend of deep yellow, with metallic overlay. Branching is low and wide and bad weather will not mar its perfect waxy finish. \$10.00

BALMUNG (J. Sass, 1939). ML. 38". Large yellow plicata, peppered with cinnamon-brown; a popular Sass creation. \$1.00

BANDMASTER (Hall, 1944). 36". A "true blue" leader in the iris parade, is this lovely powder blue self. Very large flowers. \$4.00

BARRIMOHR (Miller, 1944). A prince of an iris in a mulberry toned self.
 Standards are broad and ruffled, with semi-flaring falls brushed down in center with lustrous red-purple.

BEAVERTON (Weed, 1945). M. 44". Large well formed flowers whose standards are of a rich copper brown, infused with violet-rose, falls of dark maroon, showing a red glow. Fragrant. \$1.50

BERKELEY GOLD (Salbach, 1942). L. 45". A.M. A.I.S. 1946. A very tall, deep yellow iris. Flowers are borne on well-branched stalks. A vigorous grower and very free bloomer. \$1.50

BERMUDA SAND (Hall, 1939). M. 36". A gigantic iris in light coffeetan color. Standards and falls are heavily ruffled. \$1.00

BRYCE CANYON

BEVERLY (Lapham, 1939). M. 32". A must have in the deep pink tone. The blooms are of good size, well shaped, blooming abundantly.

BEVERLY HILLS (Milliken, 1943). M. 36". A strong pink self with large flowers. Very effective, self-asserting color. \$1.00

BILLOWY SEA (Norton, 1944). M. 38". Very large flowers of clear frosty light blue. A Great Lakes seedling of merit. \$2.25

BLACK AND GOLD (Kleinsorge, 1943). M. 36". Half and half, we call it. This unusual variegata, with standards deep, rich chrome, and falls of dark maroon. Flowers of good substance. \$2.50

BLACK FOREST (Schreiner, 1945). M. 33". H.M. A.I.S. 1946. Dramatic new iris. A smouldering purple under-glow adds unexpected brilliance to this silky ebon blue black. A dark blue beard and solid haft intensify this monotone.

BLENDED BEAUTY (Weed, 1939). ML. 40". Large well proportioned flowers with golden bronze standards and falls of golden ground with red veining.

30c

BLUE CROWN (Washington, 1945). M. A pale blue and white reverse bicolor with a frosty sheen. The pale standards are domed. The semi-flaring falls are pure white; fragrant. \$3.50

BLUE DELIGHT (Grant, 1941). M. 42". A cool crisp self of wisteria blue; with firmly domed standards and flaring falls. Substance and branching good. **50c**

BLUE RHYTHM (Whiting, 1945). ML. 30". A.M. A.I.S. 1947. Large, well formed flower of cornflower blue lightly overcast with silver. The arched and domed standards, as well as the broad flaring falls, are smoothly colored.

\$7.50

BLUE SHIMMER (J. Sass, 1942). M. 39". A.M. A.I.S. 1944. Among the choicest plicatas for originality is this shimmering white, dotted and dappled with the clearest tones of blue. **\$2.50**

BLUE SKYSCRAPER (Weed, 1938). E. 50". Gigantic flowers with closed standards of medium blue, falls dark blue washed violet. 35c

BRIGHT MELODY (Snyder, 1942). M. 36". Something new in coloring. Smooth finished and with the coloring of the Concord Grape. \$2.50

BROWNGREY BLEND (Weed, 1939). M. 44". Large flowers of brown and grey blend. Standards are closed, falls semi-flaring and slightly washed with violet. Fragrant.
40c

BROWN THRASHER (Kirk., 1941). M. 34". Medium sized flowers in two tones of golden brown, bright and like the glint of sunshine on a brown thrasher's wing.

BRUNHILDE (Salbach, 1934). EM. 40". Rich violet blue self. Flowers are wide and flaring, an unusual blue beard adds to its regal beauty.
50c

BRYCE CANYON (Kleinsorge, 1944). M. 36". A.M. A.I.S. 1947. An outstanding henna, copper colored flower. Standards are highly domed, hafts broad and falls rounded and large. Ranks four in the list of the 100 best, this year.

BUFFAWN

BUFFAWN (And., 1940). M. 34". This exquisite iris has slightly frilled standards of light tan. The falls same but overlaid with smoky lavender, veined with old gold.
60c

BURGUNDY ROSE (Hall, 1946). EM. 34". Large ruffled amethyst colored flowers that strike a brilliant note in the garden. Vigorous grower. \$5.00

BURMESE GOLD (Whiting, 1945). M. 36". Delightfully ruffled flowers in a glowing gold blend. The combination of deep yellow, pink, apricot and gold is indeed a pleasing addition to your garden. **\$5.00**

CALDERILLA (DeForest, 1944). M. 38". This unusual blend of terra-cotta gold and brown is whimsically touched with a "bit of violet". Wide, closed standards. Well branched.

CALIFORNIA GOLD (Mitchell, 1933). M. 36". Large deep yellow flowers that are slightly fragrant.

35c

CALIFORNIA PEACH (Salbach, 1941). EM. 38". An intriguing iris of α pink and apricot blend, whose standards shade from gold to old rose, the falls salmon with just α tinge of lavender in the center of each fall.
\$1.00

CAMEROUN (Cayeux, 1938). M. 38". A brilliant deep purple iris, whose standards are of vivid violet with broad semi-flaring falls of velvety black purple. \$1.00

CAMPFIRE GLOW (Whiting, 1947). ML. 36". H.M. A.I.S. 1947. Glowing ruby red, heavily suffused with gold; giving a metallic luster to the wide broad petaled flowers. Substance firm, branching good. **\$20.00**

CANYON ROAD (Kleinsorge, 1946). M. 36". Outstanding blend. Opening a violet-copper, the standards turn to a golden-tan. The falls, each with a bright violet patch at center, open a copper-brown toning down to a golden-tan.

CAPE BON (Tompkins, 1945). ML. 38". H.M. A.I.S. 1945. Large flowers of excellent texture in a blend of Arabian red and chocolate brown.

An undertone of copper adds glowing life to the bloom. \$15.00

CARLSBAD CAVERNS (Wilson, 1946). L. 36". The giant proportions of this strong stalked flower with the predominance of rich gold and creamy lemon colors, prompt the admirer in making the comparison the name intends. Standards are ruffled lemon, the falls white with pencil streaks of gold.

\$2.50

CARNIVAL PARADE (Sass, 1946). L. 38". A festive array of colors announces this Sass creation. The massive flowers have a dark rose top on standards of light yellow with a heavy blaze of gold in the center of the dark rose falls.

\$6.00

CAROLINE BURR (Smith, 1940). ML. 40". Beautiful cream colored flowers with an iridescent sheen. Form and substance good, the branching well placed. \$1.50

CASA MORENA (DeForest, 1943). M. 38". A.M. A.I.S. 1946. There is a quiet majesty in these large lustrous flowers of deep, glistening brown. A true self. Plants have excellent branching. \$4.00

CASCADE SPLENDOR (Kleinsorge, 1945). L. 40". A.M. A.I.S. 1947.

Beauty in all its splendor is found in this large ruffled blend of apricot, pink, and tan. An orange beard and style arms of yellow add brilliance to the flower.

\$6.00

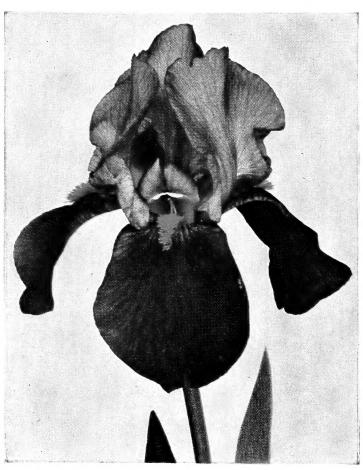

CHANTILLY (D. Hall, 1945). M. 36". A.M. A.I.S. 1947. This is a novelty!

Orchid pink with both standards and falls heavily crimped, giving the flower a dainty lacy effect. Good substance.

\$5.00

GOLDEN MAJESTY (Salbach, 1938). ML. 42". A majestic flower in size, form and substance. A brilliant golden yellow offset by a deeper golden beard. Slightly fragrant.

GOLDEN RUSSET (D. Hall, 1946). M. 40". Because the most unusual feature of this iris is its spectacular size, a clump of these enormous flowers makes an effective background. \$7.50

GOLDEN SPANGLE (Cassebeer, 1944). EM. 40". Domed yellow standards, clear white falls with border of deep yellow overlaid with heavy gilding. \$1.00

GOLDEN SPIKE (Whiting, 1940). M. 36". A pure golden yellow self. Substance is heavy. A heavy orange beard and slightly oval form add greatly to its beauty.

GOLDEN SYMPHONY (Horton, 1944). VL. 39". An unusual beauty that is one of the last to bloom. Ruffled bright yellow standards and flaring blue falls edged deep yellow match color of throat.

GOLDEN TREASURE (Schreiner, 1936). M. 38". Creamy-white flower with a shimmering infusion of gold throughout. Accentuated by a brilliant orange beard.

GOOD NEWS (Kleinsorge, 1946). M. 33". H.M. A.I.S. 1947. Brilliant mustard-gold self. Broad ruffled flowers, the falls have a narrow band of copper shading near the edges.

GRACE BALLARD (Sass, 1941). M. 36". This luscious apricot blend, with graceful flaring form of good substance adds a delightful and conspicuous note to any garden.

GRAND CANYON (Kleinsorge, 1941). M. 40". A blending of deep canyon colors, plum copper and gold with a slight ruffling.

GREAT LAKES (Cousins, 1938). M. 48". Dykes Medal 1942. From the lake shores of Canada came this pure clear blue iris with its flaring stiff crispy petal texture and beard of almost white. \$1.00

GUDRUN (K. Dykes, 1931). EM. 32". Universally admired, these giant white blooms so heavily textured are softly dusted with gold at the throat.

GYPSY (Kleinsorge, 1944). L. 38". Stunning variegata. The late flowering iris has coppery gold standards and chestnut brown falls. \$2.00

GYPSY BARON (Schreiner, 1942). M. 34". Eye catching plicata with unique coloring. The very rigid standards of silvery white are shadowed with royal blue, while the falls are mottled mulberry and \$1.50

GYPSY KING (Lothrop, 1944). M. 36". Lovely mulberry purple iris. Solid color yet showing its onco-bred strain.

GYPSY ROSE (Whiting, 1946). ML. 39". Rich hellebore-red flowers, with copper colored haft, trimmed with heavy yellow beard tipped with

HARRIETT THOREAU (Cook, 1944). M. 38". There is a liquid clarity in this exciting new deep orchid self. The large flowers are slightly waved and have a long period of bloom. \$3.00

HELEN McGREGOR (Graves, 1946). M. 36". H.M. A.I.S. 1946. Large flowers of clear light blue with beautifully ruffled borders on both standards and falls. The beard is almost white, \$10.00

HIGH SPIRITS (Horton, 1945). M. 35". Large flowers with creamy pink standards and deeper pink toned falls. Luscious. \$5.00

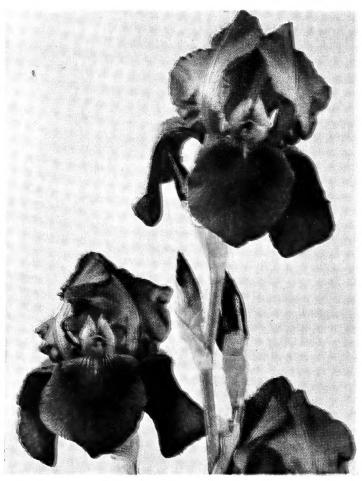

HIWASSEE (Becherer, 1946). M. 38". This beautiful bi-color has domed standards of light lilac pink, broad semi-flaring falls of deeper lilac.

HONEYFLOW (Tompkins, 1944). M. 38". H.M. A.I.S. 1946. A flaring dark copper blend with rosy undertones, enriched with α smooth brushing of inca gold across the haft.
\$10.00

HOOSIER SUNRISE (Lapham, 1942). M. 40". A bright and attractive blend of mauve-pink and yellow. Flowers are large, stalks strong.

HOWARD WEED (Kleinsorge, 1946). M. 36". An unusual light redbrown self. This flower has a heavy golden beard and a violet patch on the center of each fall. A metallic lustre envelops the entire flower. \$5.00

ICY BLUE (Weed, 1941). E. 44". The lightest blue toned iris, being a pastel blue seif dusted with frosty white that sparkles in the sunshine. 60c

MASTER CHARLES—See page 11

ILSE LOUISE (K. Smith, 1943). M. 40". Another new plicata whose standards are white lined with Mathew's purple. The falls are white in the center, edged with Mathew's purple and lined on the white area with purple.
\$4.00

INDIANA NIGHT (Cook, 1942). M. 38". Glorifying the famous Sable, this seedling is a favorite of all lovers of deep velvety purple iris. Darkly brilliant and of unusual size, substance and texture. \$4.00

INDIAN HILLS (Grant, 1937). M. 38". A rich true purple flower of oval form and good substance, large in size and with strong fragrance.

INNOVATION (Hall, 1945). M. 37". H.M. A.I.S. 1947. Something new in a flashing white plicata, fashioned with rose trim. Large flowers of good form and substance.

INSPIRATION (Burgess, 1936). M. 38". A phenomenal break in color.
Large, precisely formed flower of vivid rose carmine. Possessing unrivaled lustre, a clump of this exotic color is truly inspiring. \$1.50

INTERMEZZO (Tompkins, 1944). ML. 38". Petunia-violet self with brushings of brown at haft. A blue-tipped beard adds beauty to the large ruffled flower. \$3.50

JASMINE (Grant, 1944). M. 40". A tall smooth golden yellow with gardenia-like texture. No veining is apparent in the silken standards or rich velvety falls.
\$7.00

JASPER AGATE (Mrs. T. Williams). A brilliant copper red iris with undertoning of copper pink, whose lacquer-like finish is without trace of veining. Not tall, but so colorful that your attention is instantly drawn to it.

\$3.00

JEAN CAYEUX (Cayeux, 1931). M. 36". A graceful iris in shades of coffee tan. Flowers are full petaled and have a slight frill.
35c

JONQUIL (Whiting, 1943). ML. 42". Soft clear yellow flowers, edged with deeper yellow. Ideal for background.
\$1.00

JULIET (Kleinsorge, 1946). M. 36". M. 36". H.M. A.I.S. 1947. Bright, coppery red blend with salmon shadings. Burnt orange beard. \$5.00

LAKE GEORGE (Smith, 1945). ML. 39". This soft blue-violet self has slightly ruffled standards, with large flaring falls that are almost horizontal. The yellow beard is blue tipped. Heavy substance. \$5.00

LAKE HURON (J. Sass, 1942). M. 36". One of the shades we have been looking for. This iris is a deep blue, emphasized by a golden yellow beard.
50c

LAKE SHANNON (DeForest, 1945). M. 36". H.M. A.I.S. 1946. Broad petaled flower of medium blue. The deeper colored veining and fluted edges, add to the charm of this iris.
\$6.00

LAMPLIGHT (Schreiner, 1944). M. 34". Like a glow of lamplight seen from afar, this lovely blend of flesh, buff and copper draws all eyes to its fine styling and substance.
\$4.00

LANCASTER (Cook, 1940). M. 36". A strong rose glow emanates from this tall iris, for its mass of ruffled blossoms and coloring cannot be excelled.
60c

LIDICE (Tompkins, 1945). M. 36". A very attractive flower of dahliacarmine. Heather trim on the falls and a bronze beard add to its beauty. \$5.00

LIGHTHOUSE (Salbach, 1936). L. 36". This glowing iris with standards of old rose and falls of rose-red, has a beaming yellow center, as if a hidden light was bursting through.

LIGHTS ON (Lapham, 1946). M. 33". H.M. A.I.S. 1946. Unusually clear cut flowers in the same uniform bright glowing red. Unequaled in color.

\$7.50

L. MERTON GAGE (Lapham, 1940). M. 40". A beautiful blend of rasp-berry-pink and creamy-yellow has given this iris high rating in the pink class.
\$1.00

LORD DONGAN (K. Smith, 1940). M. 37". A handsome flower royally dressed in silken Chinese violet and deep velvety pansy violet. A thick pale yellow beard emphasizes the depth of color in this sturdy iris.

A Cordial Invitation

is extended to you to visit the National Iris Gardens founded by Howard Weed.

We would like to welcome you especially during the month of May, when the Iris are blooming.

An unusual feature of our gardens is the concentration in the show rows of eight hundred different varieties of Iris. You can see them as they will grow in your own garden.

This year we are privileged to have the annual convention of the American Iris Society meet in Portland, Oregon. Their visit at the National Iris Gardens is to be on Sunday, May 15th.

OUR SHOW GARDENS AND FIELDS

Our show gardens and fields are located on the north slope of Cooper Mountain, three and one-half miles south of Aloha on Wheeler Avenue. Follow Jefferson Street out of Portland. Canyon Road is a continuation of Jefferson Street going West. At the signal light in Aloha turn South, following Wheeler Avenue up to our fields.

You can find our office at Fourth and Main Street, Beaverton, Oregon (Phone: Beaverton 4574).

Our climate is mild, with plenty of moisture and a long growing season. We are fortunate indeed in having our Iris grown in Oregon and Washington, where there is just enough winter to enable the rhizomes to become perfectly hardy.

CULTURAL DIRECTIONS

Fertilize beds lightly each year.

Water thoroughly once every 2 or 3 weeks from late spring to fall.

Cultivate soil frequently. Prevent packing and baking of the soil surface.

No one should experience difficulty in growing the lovely Bearded garden iris. In fact they are so easy to grow that they are among the topmost popular of all flowering plants. But like all flowers they respond to proper care and treatment, giving more and better flowers for moderate attention.

In our experience they prefer a non-acid soil. Lime need not be applied unless it is known that the soil is definitely on the acid side. In any event use lime sparingly, if at all. All fertilizers added to the soil should be non-acid forming such as Vigoro, Steamed bone meal or superphosphate. Some may be incorporated in the soil at the time of planting, particularly the bone meal—a handful to a plant well worked into the soil—or each spring as a general surface feeding cultivated into the soil

The soil should be thoroughly spaded to a depth of at least ten inches and if avalable at that time work in a generous amount of well-rotted barnyard manure or a smaller quantity of sheep guano. The latter is rich in nitrogen and may cause an excessive amount of weak growth or burning of the roots if it is not well mixed with the soil. Use an average amount of garden sense just as you would in preparing the garden for vegetables and your soil will be fine for Iris.

They do best in a well drained, light garden soil. Give them either full sun or partial shade. That is, shade for not over half the day. In extremely heavy soils the clay may be lightened by the application of gypsum, sand, or humus material such as compost or peat as your budget permits.

Planting the Rhizomes or Iris Roots. Prepare a hole large enough to take the spread of the roots. Remembering that the top of the rhizome should be flush with the garden level or just slightly higher, scoop out enough soil to allow a cushion to support the rhizome. Spread the roots out to the side so they rest in a non-tangled, natural position. Then fill in the planting hole with soil and water the plants to settle the soil about the roots. Keeping the soil moist and well cultivated at all times makes for better growth of the plants. It encourages the production of fibrous roots with which the plants feed.

The best planting time for iris generally is from June to September. In mild climates planting may be extended into the month of November. Where the winters are cold, it is best to practice early planting for this allows the plants to become well rooted and established before going dormant.

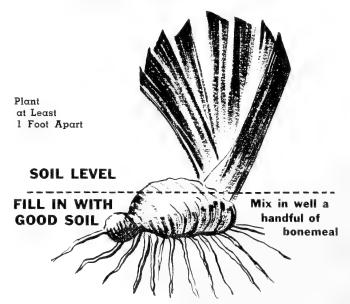

Winter protection is advisable in northern severe winters. After the ground has frozen, in winter, apply a covering of clean material

—such as straw, pine boughs, salt or marsh hay or other material which will not pack down tight. It is very essential that ventilation be present at all times while the covering prevents freezing and thawing of the soil. Leaves and manure should not be used as a mulch. They pack tightly and encourage rotting of the roots. The mulch should be removed in late spring after danger of frost has passed.

Iris have few pests and it pays to keep a watch out for them. Iris Leaf Blotch is a fungus causing brown spots on the leaves in late spring and summer. These spotted leaves should be cut off carefully and burned. Particular care should be used in removing the diseased parts so that the spores of the blight are not spread to healthy leaves. Keep the garden clean and free of weeds and dead leaves.

Iris borer has caused some trouble in some parts of the country. It works within the rhizome and may be suspected when a frond of iris leaves begins to wilt. Examine the rhizome for evdence of borings and if present either cut out with a knife or kill the borer by working a wire into his channel. It is best to take up the infected rhizome, remove the borer, cut back the leaves and replant.

LOS ANGELES (Mohr-Mitchell, 1927). M. 38". A classic plicata of snowy white, with fine blue stitching at the haft and the base of the standards.

LOTHARIO (Schreiner, 1942). ML. Large, lightly frilled blue bi-color, the same pattern as Amigo. The rich orange beard brings out a striking contrast. \$3.00

LULLABY (D. Hall, 1943). M. 36". Orchid pink blossoms with no haft markings. The large flowers have good form and substance, stalks are strong and well branched. \$2.00

LYNN LANGFORD (Hall, 1946). M. 36". H.M. A.I.S. 1946. A deep toned orchid pink with a bright golden throat and beard. Colors of this lovely iris are so smoothly blended that no veining is evident. \$8.00

MAGIC CARPET (Schreiner, 1943). ML. 33". An echo from the Arabian Nights, this fabulous plicata has standards of buff subtly flecked rose with faint cinnamon markings on haft. The falls are flecked rose rioting on deep creamy gold.

\$3.00

MAGIC WAND (Kleinsorge, 1946). L. 36". A self of deep golden tan. Closed and arched standards contrast with semi-flaring falls that are wide at haft. A suffusion of lavender on the falls, a bright golden beard tipped with brown, and brown veining at the haft, combine in the beauty of this iris.

\$3.00

MAIDEN BLUSH (Hall, 1943). M. 36". A favorite in our garden is this luscious apricot self with domed standards and semi-flaring falls. The plants are hardy and produce an abundance of flowers of unusual size.

\$1.00

MAJENICA (Cook, 1941). EM. 36". Refreshing, salmon tinted pink blend with its wide-eyed flowers of crisp, lasting substance. A self of clear bright coiors. \$1.00
